Alpine

Chilled and Ambient Filtered Drinking Water

Specifications and guide to model selection

Product Number	Model Name	Dispenser type	Chilled water delivery cups per hour	height mm	width mm	depth mm
932060	Alpine 060	Slimline	60	340	180	450
932120	Alpine 120	Slimline	120	340	180	450
932125	Alpine 125	Dual Temp	120	340	180	450

Power supply

A standard 10 Amp power outlet is required in the cupboard area where the unit is to be installed. All the Alpine models are supplied with a 1 metre flex cord and plug.

Water supply

A single 15mm (1/2") stop-tap with a male thread should be installed in an easily accessible position. Water supply must be microbiologically safe to drink, with a minimum dynamic water pressure of 250kPa.

Warranty

All components of the Billi Alpine are covered by a 12 month warranty. Filter cartridges are a consumable and are not covered by warranty, as water conditions and usage vary.

*Based on the initial number of cups of chilled water immediately available, drawn at one cup every 10 seconds. Consideration may be need for usage patterns and draw off methods. 1 cup = 170ml.

Disability conscious design

User friendly and ergonomically designed, the Billi Alpine's dual-temp dispenser conforms to current Australian Standards for ease of use by persons with a disability. The unique safety switch operation, if selected, allows for full lever and hand control, thereby maintaining this compliance.

Options and accessories

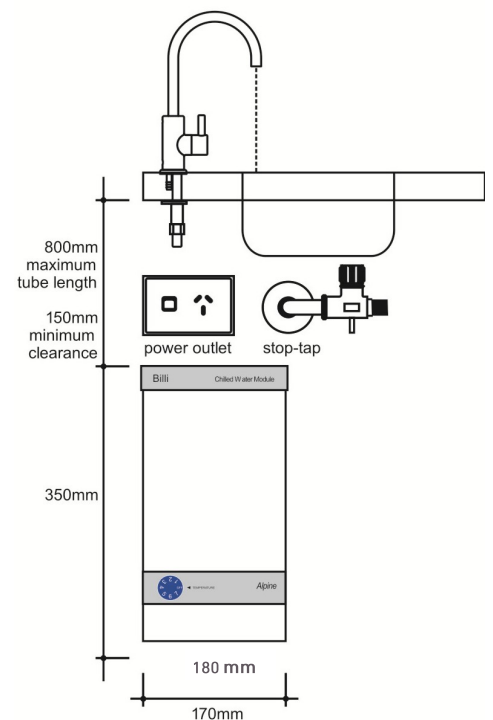

- Finishes: Standard finish for the Alpine Dual-Temp Dispenser is Bright Chrome. Optional finish— Brushed Chrome or Black Chrome.
- Billi Font: Allows the Alpine to be located away from sink areas. Finished in polished Stainless Steel.
- Dispenser Riser: 65mm dispenser extension - supplied standard with the Billi Font.
- Tubing Extension Kit: Allows the dispenser to be offset from the under-
