Water supply

Two 15mm (1/2") stop-taps with male threads—one cold water supply to Quadra Plus and one cold water supply to Sink Mixer Tap—should be installed in an easily accessible position. Water supply must be micro-biologically safe to drink, with a minimum dynamic water pressure of 250kPa.

Power supply

Quadra Plus 5 & Quadra Plus 9 models require a standard 10 Amp power outlet and the Quadra Plus 15 models require a 15 Amp power outlet in the cupboard area where the unit is to be installed. All models are supplied with a 1 metre flex cord and plug.

Warranty

At Billi, we stand behind all of our products and offer a generous 5 year pro rata warranty on Billi Quadra's stainless steel boiling water tank. All other components are covered by a 12 month warranty. Filter cartridges are a consumable and are not covered by warranty, as water conditions and usage vary.

Technical Advice

Contact Billi Pty Ltd on 1300 300 316

*Based on the initial number of cups of boiling water immediately available, drawn at one cup every 10 seconds.

Consideration may be needed for usage patterns and draw off methods. 1 cup = 170ml.

Accessories included

The Billi Quadra Plus is supplied with all tubing & fittings required for installation. A 450mm flexible braided steel hose with 15mm (1/2") female nut fittings is supplied for connection direct to the stop-tap. Two 350mm flexible braided steel hoses with 15mm (1/2") female nut fittings are supplied for connection to the Sink Mixer Tap. A pressure regulator and dual-check backflow prevention device is built into the unit. No additional pressure reducing valve should be fitted.

Options

- Finishes: Standard finish for both the taps is Bright Chrome. Optional finishes—Brushed Chrome or Black Chrome for the Dual Temp Dispenser.
- Mixer Tap: Supplied standard with Mixer Tap. Optional Syles—Gooseneck Mixer and Pin Lever.
- Billi Font: Allows the Quadra Plus dual temp dispenser to be located away from sink areas. Finished in polished Stainless Steel.
- Dispenser riser: 65mm dispenser extension – supplied standard with the Billi Font.
- Extension Kit: Available for installations where the dispenser needs to be offset from the underbench unit.
- Vent Kit for AC units: Standard or booster-fan versions are available.
- Sink Mixer Disabled Lever: Replaces standard Sink Mixer Lever.

Certifications

Every Billi drinking water appliance is manufactured under a certified quality control system. The Billi Quadra Plus has been tested and complies with all required standards including: 4 Star WELS rating; Watermark Licence Number 21525; Tested to AS3498 and AS/NZS4020; AS/NZS ISO 9002 Certificate Number QEC 11627; C-Tick approved; Complies with 1428 Requirements for Access for the Disabled and Section J6 of the BCA. Electrical Compliance Number CS100600V.
