Filter Tap

Filtered Drinking Water System

Specifications and guide to model selection

Product Number	Model Name	Dispenser type	height mm	width mm	depth mm
932210	Filter Tap	Slimline	320	130	130

Water supply

A single 15mm (1/2") stop-tap with a male thread should be installed in an easily accessible position. Water supply must be microbiologically safe to drink, with a minimum dynamic water pressure of 250kPa.

Warranty

All components of the Billi Filter Tap are covered by a 12 month warranty. Filter cartridges are a consumable and are not covered by warranty, as water conditions and usage vary.

Based on the initial number of cups of chilled water immediately available, drawn at one cup every 10 seconds. Consideration may be need for usage patterns and draw off methods. 1 cup =170ml.

Options and accessories

- Dispenser—Billi Filter Tap is supplied standard with the Round Slimline dispenser. Optional Dispenser—Square Profile Slimline.
- Finishes: Standard finish for the Billi Filter Tap Slimline is Bright Chrome. Optional finish— Brushed Chrome and Black Chrome.
- Billi Font: Allows the Billi Filter Tap to be located away from sink areas. Finished in polished Stainless Steel
