B-1000

Data Sheet

Instant Filtered Drinking Water

Specification and model selection guide

Product Number	Model Name	Dispenser type	height mm	width mm	depth mm
911000	B-1000	Slimline	320	130	130

Water supply

A single 15mm (1/2") stop-tap with a male thread should be installed in an easily accessible position. The water supply must be microbiologically safe to drink, with a minimum dynamic water pressure of 250kPa.

Easy installation

Installing the B-1000 is simple. Colour-coded flexible tubing and easy-connect fittings ensure a rapid and trouble-free operation.

1 cup = 170ml. Based on the initial number of cups of chilled water immediately available, drawn at one cup every 10 seconds. Consideration may be need for usage patterns and draw off methods.

Options and accessories

— Finishes: Standard finish for the B-1000 dispenser is bright chrome. Optional Finishes—Brushed chrome or black chrome.

— Dispensers: Choice of round or square profile slimline dispenser.

— Billi Font: Allows the B-1000 to be located away from sink areas and is finished in polished stainless steel.

— Tubing extension kit: Allows the dispenser to be offset from the under-bench unit.

Warranty

All components of the B-1000 are covered by a 24-month* warranty. Filter cartridges are a consumable and are not covered by warranty, as water conditions and usage vary.

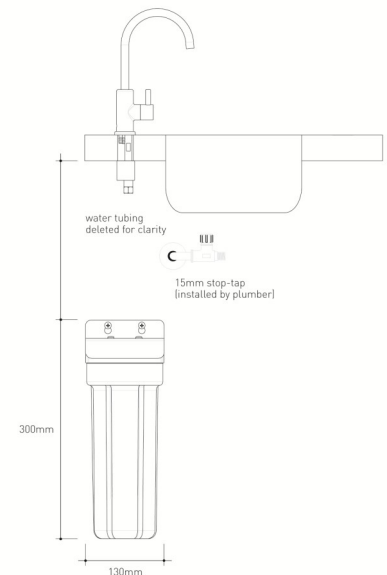

* 24-month warranty dependant on installation by Billi service technician.
