# B-3000

## Data Sheet

### Instant Chilled Filtered Drinking Water

#### Specification and model selection guide

Product Number	Model Name	Dispenser Type	Initial Cup Delivery	Chilled Water Delivery (Cups per hour)	height mm	width mm	depth mm
913000	B-3000	Slimline	12	60	340	180	460

#### Water supply

A single 15mm (1/2") stop-tap with a male thread should be installed in an easily accessible position. The water supply must be microbiologically safe to drink, with a minimum dynamic water pressure of 250kPa.

#### Power supply

A standard 10 amp power outlet is required in the cupboard area where the unit is to be installed. All B-3000 models are supplied with a 1 metre flex cord and plug.

#### Easy installation

Installing the B-3000 is simple. Colour-coded flexible tubing and easy-connect fittings ensure a rapid and trouble-free operation.

1 cup = 170ml. Based on the initial number of cups of chilled water immediately available, drawn at one cup every 10 seconds. Consideration may be needed for usage patterns and draw off methods.

#### Options and accessories

- Finishes: Standard finish for the B-3000 dispenser is bright chrome. Optional Finishes—Brushed chrome or black chrome.
- Dispensers: Choice of round or square profile slimline dispenser.
- Billi Font: Allows the B-3000 to be located away from sink areas and is finished in polished stainless steel.
- Tubing extension kit: Allows the dispenser to be offset from the under-bench unit.

#### Warranty

All components of the B-3000 are covered by a 24-month\* warranty. Filter cartridges are a consumable and are not covered by warranty, as water conditions and usage vary.  
\* 24-month warranty dependant on installation by Billi service technician.
