Eco

Australia's Smallest Instant Boiling and Chilled Filtered Drinking Water Unit

Specifications and guide to model selection

Product Number	Model Name	Initial cup delivery & suggested no. of persons	Boiling water delivery cups per hour	Chilled water delivery cups per hour	Heating element kW	height mm	width mm	depth mm
901000	Eco	10	90	60	1.5	340	180	500

Power supply

The Billi Eco requires a standard 10 amp power outlet. It is supplied with a 1 metre flex cord and plug.

Water supply

A single 15mm (1/2") stop-tap with a male thread should be installed in an easily accessible position. Water supply must be microbologically safe to drink, with a minimum dynamic water pressure of 250kPa.

Warranty

All components of the Billi Eco are covered by a 12 month warranty. Filter cartridges are a consumable and are not covered by warranty, as water conditions and usage vary.

*Based on the initial number of cups of chilled water immediately available, drawn at one cup every 10 seconds. Consideration may be need for usage patterns and draw off methods. 1 cup =170ml.

Disability conscious design

User friendly and ergonomically designed, the Billi Alpine's dual-temp dispenser conforms to current Australian Standards for ease of use by persons with a disability. The unique safety switch operation, if selected, allows for full lever and hand control, thereby maintaining this compliance.

Options and accessories

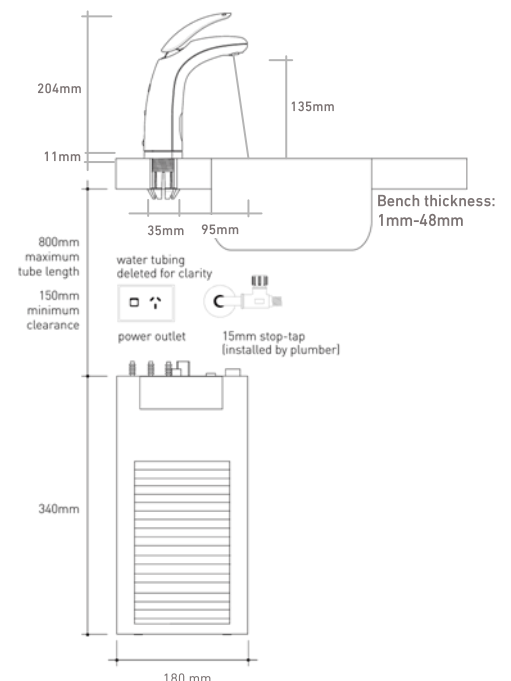

- Dispenser Finishes: Standard finish for the Billi Eco Dispenser is Bright Chrome. Optional finish— Brushed Chrome or Black Chrome.
- Billi Font: Allows the Billi Eco to be located away from sink areas. Finished in polished Stainless Steel.
- Dispenser Riser: 65mm dispenser extension - supplied standard with the Billi Font.
- Tubing Extension Kit: Allows the dispenser to be offset from the underbench unit.
