TECHNICAL DRAWING & INSTALLATION REQUIREMENTS

PRODUCT DIMENSIONS

PREFERRED INSTALLATION LAYOUT

WATER SUPPLY

A single cold water supply point with a 1/2" BSP stop tap is required. Stop tap is to be installed in an easily accessible position, within 600 mm of the inlet to the boiling water module. Dynamic supply pressure: Min. 250 kPa, max 600kPa. Supply temp min. 5°C, max. 30°C.

POWER SUPPLY

A single 10 amp GPO is required installed in an accessible position. Refer to Diagram 1. Power circuits must be fitted with an earth leakage protection device (RCD). Chilled water module is supplied with a 1 meter flex cord and plug.

CERTIFICATIONS

Every Billi drinking water appliance is manufactured under a certified quality control system. All Billi commercial range models have been tested and comply with all required standards including: WaterMark: WM-022607; Certified to AS/NZ3498 and AS/NZ 4020; ISO9001:2015, QEC 11627; HACCP: PE-872-WAT-2-02; WELL Cornerstone Member.

WARRANTY

The Billi Sparkling Suite / Alpine Spring Range is covered by a comprehensive 2 year warranty on all parts and labour.
