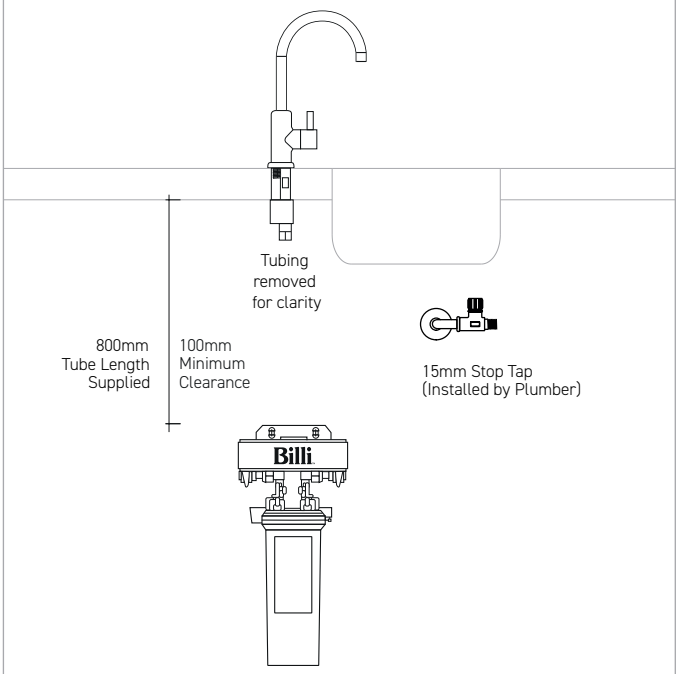
Installation Requirements



Installation Notes

Electrical	N/A
Water	A single 1/2" BSP (15mm) stop-tap with a male thread should be installed in an easily accessible position. Water supply must be microbiologically safe to drink, with a minimum dynamic water pressure of 250kPa and a maximum of 1000kPa.
Pressure Valve	500kPa pressure limiting and dual check valve included in installation kit.
Stone Benches	Billi has a no-cut policy regarding all stone benches in compliance with regulations. The safety of our team and customers remains Billi's top priority.
Ventilation	No joinery ventilation or accessories are required for this Billi product (no waste heat).

Filtration – Most Recommended Replacement Filters

Billi range of premium filters utilize BWT's unique FibronX® technology, providing superior taste, water quality, filter life longevity and peace of mind when it comes to hygiene.
