

Billi OmniOne Plus 9 with XL Levered Dispenser and Square Mixer

The OmniOne is the latest iteration of multifunction filtered drinking water appliances from Billi. The intersection of genuine innovation and sustainable design, OmniOne integrates Billi's renowned water-cooling and energy reclaim technologies into a single space-saving under bench control module.

The OmniOne range is the ultimate inclusion to the modern workplace or facility.

Supplied standard with a DDA compliant XL levered drinking water dispenser and 6 star rated mixer tap, the solution is both functional and appealing.

Features

XL Levered Dispenser

Square Mixer

OmniOne Plus 9 Under-Bench Units

UNDER-BENCH UNITS

Billi OmniOne Unit

CO₂ Cylinder

Installation Requirements

Installation Notes

Electrical

A standard 10 amp power outlet is required, located no further than 1000mm from the underbench unit. The system is supplied with a 1 metre flex cord and plug.

Water

Two (2) Cold 1/2" BSP (15mm) stop-taps with a male thread should be installed in an easily accessible position. Water supply must be microbiologically safe to drink, with a minimum dynamic water pressure of 250kPa and a maximum of 1000kPa.

Pressure Valve

Integrated 500kPa pressure limiting and dual check valve is pre-installed to the unit inlet.

CO₂ MSDS

The CO₂ gas cylinder supplied must be secured in a suitable location. Each cylinder contains 1100g of CO₂ and should be installed in a well ventilated area. Each cylinder will provide between 200-350L of sparkling water depending on the unit settings. The MSDS is available on www.billi.com.au for a complete list of specifications and warnings. Replacement gas cylinders are available from Billi. CO₂ Cylinder - single 996911 or double 996912.

Stone Benches

Billi has a no-cut policy regarding all stone benches in compliance with regulations. The safety of our team and customers remains Billi's top priority.

Ventilation

No joinery ventilation or accessories are required for this Billi product (water cooled technology).

Filtration - Most Recommended Replacement Filters

Billi range of premium filters utilize BWT's unique FibronX® technology, providing superior taste, water quality, filter life longevity and peace of mind when it comes to hygiene.

994051 - (5.0 micron)

Supplied standard.
Commercial & high volume sites.

994052 - (0.2 micron)

Fine filtration.
Residential or Critical Care sites.

*Drawings are for guidance during Specification, refer to Installation requirements for final install. All efforts are made to ensure Compliance & Certifications claims are current, however this is subject to change without notice. Billi assumes no liability or responsibility for out of date information.
